

Ashok K M

Sr. Specialist (Business Analyst)

✉ ashoksri9711@gmail.com ☎ +91 9600976746 📍 Madurai, INDIA.

PROFILE SUMMARY

I am Ashok, **Business Analyst professional** with 9+ years of experience in project, program, release, and resource across **Healthcare, BFSI & technology domains**. Strong expertise in end-to-end release management including **sprint planning**, release readiness, dependency tracking, & deployment coordination. Proficient in **Agile delivery, executive reporting, financial tracking, risk & change management** using **JIRA, Power BI, Confluence, Tableau, Azure DevOps, Snow Admin & MS Project**.

WORK EXPERIENCE

Sr. Specialist, Wells Fargo International

03/2023 – Present
Bengaluru

- Prepare & publish **Daily/Weekly/Monthly/Quarterly executive reports and presentations**, including **Power BI dashboards**, covering **CRV Pipeline, Delta, Data Quality, Actionable, Partner metrics, and KPIs**.
- Manage **data refresh cycles, Tableau and Power BI dashboards, change requests, issues, and project assignments** using JIRA, supporting effective **change management** processes.
- Track and update **bugs, sprint/wave tasks, incidents, risks, and impediments**, maintaining **RACI matrix, risk register, and change logs** until resolution.
- Coordinate **end-to-end release activities** including sprint tracking, dependency management, **change impact assessment**, release notes, and stakeholder communication via Confluence.
- Develop and maintain **project plans, schedules, and resource allocations**, ensuring delivery aligned with **Agile / CRV lifecycle and change management methodologies**.
- Collaborate with **cross-functional global teams and leadership** to validate data, provide status updates, and ensure timely, high-quality delivery.

Consultant-Business Analyst, Accenture Solutions

10/2021 – 03/2023
Bengaluru

- Experienced in **Resource, Release, Program, and Portfolio Management**, handling **end-to-end project creation, scope management, PBIs, Bugs, CRs, PCRs, and UAT planning and execution** with exposure to both **SDLC and STLC**.
- Prepare and share **weekly/monthly/quarterly reports**, including **Application Maintenance & Ops, MPF modules (Burnup, Backlog & Sprint), QA normalization with exit criteria, backlog dashboards, and financial forecasts** for **leadership and clients**.
- Manage **resource allocation and onboarding**, including **demand creation, Dev machine setup, AD access, SOW renewals**, and coordination with **onshore/offshore teams**, ensuring smooth **deployment and project execution**.
- Track and review **project progress, sprint bugs, releases, impediments**, and **interlocks** with **Scrum, QA, Dev, and support teams** using **Azure DevOps, JIRA, Confluence, MS Project, and SharePoint**.
- Handle **financial and invoice management**, performing **reconciliation of onshore/offshore resources**, preparing **budget vs actual reports**, and coordinating with **PMs and clients** for approvals.
- Facilitate **incident management, project administration, and client interactions**, organizing **meetings**, maintaining **documentation**, and supporting **multiple workstreams** for efficient **project delivery**.

- Drive **demand creation to closure** using **SMART** and **ABACUS**, ensuring timely **resource deployment**, **WBSE** tracker and **project fulfillment**.

Senior Analyst, UST Global-Dell EMC

10/2020 – 10/2021
Bengaluru

- Responsible for **project creation and management**, including **scope tracking**, **resource allocation**, **releases**, and raising **change requests (CRs/PCRs)** for scope modifications.
- Prepare and share **weekly/monthly/as-requested reports** using **MS Excel**, including **demand vs supply**, **resource allocations**, **burn up/down charts**, and **dashboards**.
- Coordinate with **Dev, Test, QA, Project Managers, Onshore and Offshore teams**, acting as a **single point of contact** for stakeholders and clients to ensure smooth communication.
- Manage **project operations**, including **timesheet tracking**, **financials**, **invoicing**, **receivables**, **risk register**, **sprint planning**, **daily stand-ups**, **reviews**, **retrospectives**, and other **Scrum activities**.
- Handle **end-to-end Azure Stack HCI OS releases** from **Define phase** to **Sustenance phase**, including planning, implementation, testing, and deployment as per the **release schedule**.

Senior Analyst, Team lease Digital India

05/2019 – 08/2020
Bengaluru

- Collaborate with **Project Managers, and leads** to track **resource feedback**, identify suitable resources for **open demands**, and manage **onboarding**, **location transfers**, and **allocations** for onshore/offshore projects.
- Track **timesheets**, **financials**, **resource requests**, **deployments**, **renewals**, and coordinate with **vendors** for procurement and resource fulfillment.
- Manage **release schedules**, including **Cisco Commerce releases**, **BAT**, **UAT**, defect backlogs, planned releases, infrastructure updates, performed **testing**, maintain **project timelines** and service requests.
- Identify **risks** impacting releases, implement **Agile methodologies**, and use tools like **JIRA** to ensure **process improvements**, **quality**, and **timely project delivery**.
- Prepare and publish **timely reports** to stakeholders including **Delivery**, **TFS**, **procurement**, and maintain **quarterly/monthly release and resource reports** for effective governance.

Program Associate, HCLTech, India

11/2015 – 05/2019
Chennai

- Managed **system administration** for around **113 websites**, maintaining **user accounts** and handling major sites like **Curaspan**, **Humana**, **Availity**, **Passport One Source**, **Emdeon**, **Pay Point**, **Anthem**, **Jaysec**, etc.
- Assisted **Project and Program Managers** in daily activities, coordinating between **Design**, **Dev**, **QA**, and ensuring **resource allocation** on billable assignments.
- Prepared and circulated **internal/external presentations**, **status reports**, **dashboards** (Joining Pipeline, Issue Tracker, Operations Support) via **SharePoint** to **executive leadership and BU heads**.
- Monitored **timesheet compliance**, **invoicing**, **financials (billed/unbilled)**, **SOW renewals**, and followed up on **customer emails** to ensure **process SLAs** were met.
- Supported **administrative and operational activities**, including **client visits** for requirement tracking and review, ensuring smooth functioning of operations.
