

Ashok K M

Sr. Specialist – Program & Project Management | PMO | Release Management | AI-Enabled Delivery

ashoksri9711@yahoo.com • +91 9600976746 • Madurai, India

PROFILE SUMMARY

Business Consultant / PMO professional with 9+ years of experience in project, program, release and resource management across Healthcare, BFSI and technology domains. Strong expertise in end-to-end release management, sprint planning, release readiness, dependency tracking, deployment coordination, executive reporting and governance. Experienced in using data, dashboards and AI-assisted productivity approaches to improve reporting, data-quality reviews, issue analysis, stakeholder communication and delivery follow-up. Proficient with JIRA, Power BI, Confluence, Tableau, Azure DevOps, ServiceNow, Snow Admin and MS Project.

AI & DIGITAL DELIVERY EXPERIENCE

- Apply AI-assisted approaches to summarize project and release updates, structure executive-ready status reporting, identify recurring themes in risks/issues, and improve the speed and consistency of stakeholder communications.
- Leverage AI-enabled analysis concepts alongside Power BI/Tableau reporting to support KPI interpretation, data-quality checks, trend identification and preparation of actionable insights for leadership.
- Use AI productivity techniques for meeting/action-item consolidation, release-note drafting, requirement clarification and project documentation while maintaining human review and governance.
- Explore AI-supported process improvement opportunities across Agile/CRV delivery, dependency tracking, change management and PMO reporting to reduce manual effort and improve delivery visibility.

PROFESSIONAL EXPERIENCE

Sr. Specialist, Wells Fargo International | Bengaluru | Mar 2023 – Present

- Prepare and publish daily/weekly/monthly/quarterly executive reports and presentations, including Power BI dashboards covering CRV Pipeline, Delta, Data Quality, Actionable, Partner metrics and KPIs.
- Manage data refresh cycles, Tableau and Power BI dashboards, change requests, issues and project assignments using JIRA, supporting effective change management.
- Track bugs, sprint/wave tasks, incidents, risks and impediments; maintain RACI matrix, risk register and change logs through resolution.
- Coordinate end-to-end releases including sprint tracking, dependency management, change-impact assessment, release notes and stakeholder communication via Confluence.
- Maintain project plans, schedules and resource allocations aligned to Agile / CRV lifecycle and change-management methodologies.
- Collaborate with cross-functional global teams and leadership to validate data, provide status updates and ensure timely, high-quality delivery.
- Use AI-assisted productivity techniques to accelerate reporting, documentation, action tracking and analysis of recurring delivery issues, with human validation before stakeholder use.

Project Consultant, Accenture Solutions | Bengaluru | Oct 2021 – Mar 2023

- Managed Resource, Release, Program and Portfolio activities including project creation, scope management, PBIs, bugs, CRs, PCRs and UAT planning/execution across SDLC and STLC.
- Prepared weekly/monthly/quarterly reports covering Application Maintenance & Ops, MPF modules, QA normalization, backlog dashboards and financial forecasts.
- Managed resource allocation/onboarding, demand creation, access/setup activities, SOW renewals and onshore/offshore coordination.
- Tracked project progress, sprint bugs, releases, impediments and interlocks using Azure DevOps, JIRA, Confluence, MS Project and SharePoint.
- Managed financials and invoice reconciliation, budget-vs-actual reporting and client/PM approvals.

Senior Analyst, UST Global – Dell EMC | Bengaluru | Oct 2020 – Oct 2021

- Managed project creation, scope tracking, resource allocation, releases and change requests; prepared demand/supply, allocation and burn-up/down reporting.
- Coordinated Dev, Test, QA, PM, onshore and offshore stakeholders and supported Scrum ceremonies and project operations.

- Managed end-to-end Azure Stack HCI OS releases from Define through Sustenance, including planning, implementation, testing and deployment.

Senior Analyst, Teamlease Digital India | Bengaluru | May 2019 – Aug 2020

- Managed resource planning, onboarding, allocations, timesheets, financials, renewals and vendor coordination.
- Managed release schedules, BAT, UAT, defect backlogs, infrastructure updates and project timelines; identified release risks and supported Agile process improvements.

Program Associate, HCLTech, India | Chennai | Nov 2015 – May 2019

- Supported program/project managers with system administration, resource allocation, executive reporting, dashboards, timesheet compliance, invoicing, financials and SOW renewals.

EDUCATION

B.E. Computer Science & Engineering, MIET – Anna University, Chennai | 2011 – 2015 | Sivagangai
